Subject: RE: Chemours WW Sampling Request Letter

Thanks Kevin. I was in the midst of locating the letters used by the Navy and the ANG for their PA PFAS sites. The majority of the nonresponsive residences in the Washington Works area are in Ohio – there's only a handful in WV. That said, I'm sure Jenny Wilson will have a say in any letter used for the Ohio homes.

Subject: Chemours WW Sampling Request Letter

Good morning,

I have more time to work on the EPA sampling request letter to be sent to the nonresponsive residents, but am wondering if you know of any other sample request letters we have sent in the past? It could be from any site. I would just like to get an idea of how we normally request residential sampling and the language used so that it is somewhat consistent. Please let me know what you think or if there is someone that might have an example to provide.

Thank you!

Leah
